Printing Instructions:

When printing, select "Fit to printable area" (or similar) to ensure the page fits with your printer type and local paper size. I suggest printing onto card stock or matte photo paper. This printable includes a printed backing paper. To use the backing page, turn the printed matching card pages over and place them back into the printer to print the background onto the other side - note, this is optional, if your cardstock is thick enough you may choose not to print the background. Laminate the printed cards for durability.

How to Play Concentration/Memory Game

Shuffle the cards well and spread them face down across the table.

Players take turns to turn over two cards, searching for the matching pairs. If the cards selected are a match, the player keeps the matching pair and takes another turn. If they are not the same, the cards are turned back over in the same location and play moves to the next player. Once all cards have been matched, the player with the most pairs wins the game.

STOP BY AND SAY HI!
