You may not use any part of this content for commercial purposes - that includes selling the document, giving it away to promote your business or website, or printing the file to sell. You may not share, loan or redistribute these documents. Duplication of this file or any other Childhood 101 files is forbidden and violates copyright law. Teachers and educators may use multiple copies for students in their own classroom.

Printing Instructions - PLEASE READ FULLY BEFORE PRINTING

Before printing, carefully choose which version of the multiplication matching cards suit your style of reciting times tables ($1 \times 2 = 2$ or $2 \times 1 = 2$).

The file includes a backing page for each set of multiplication tables. To use the backing page, you will need to turn the printed matching card pages over and place them back into the printer to print the background onto the other side. **Please double check the pages you are printing from the document before proceeding.**

Be sure to **select "Fit to printable area" (or similar) when printing** to ensure the page fits with your printer type and local paper size.

Print onto card stock for best results. Laminate the printed cards for durability.

If you are experiencing difficulties with the document printing, please ensure you are opening the PDF in Adobe Acrobat and not printing from a web browser or other Preview program. If you are using an older version of Acrobat, you might need to update to a newer version of the software. If the problem persists, please check the settings within Acrobat as you print by selecting File -> Print -> Advanced -> Print as Image.

How to Play Memory Match Game

Choose a set of multiplication table cards to revise. Shuffle the cards well and spread them face down across the table.

Players take turns to turn over two cards, searching for the matching pair - a question card ($1 \times 2 =$) and an answer card (2). If the cards selected are a pair, the player keeps the card pair and takes another turn. If they are not the same, the cards are turned back over in the same location and play moves to the next player. Once all cards have been matched, the player with the most pairs wins the game.
