You will need to print two copies of the snowflake card pages to create matching pairs. The file also includes a backing page for use with the matching cards. To use the backing page, you will need to turn the printed matching card pages over and place them back into the printer to print the background onto the other side. Please double check selections before printing.

Be sure to **select “Fit to printable area” (or similar) when printing** to ensure the page fits with your printer type and local paper size.

Print onto card stock for best results. Laminate the printed cards for durability.

## How to Play a Memory Match Game

Shuffle the cards well and spread them face down across the table.

Players take turns to turn over two cards, searching for the matching pair of snowflake cards.

If the cards selected are a pair, the player keeps the card pair and takes another turn. If they are not the same, the cards are turned back over to rest in the same location on the tabletop, and play moves to the next player.

Once all cards have been matched, the player with the most pairs wins the game.
